LUCY THE LABRADOR
Lucy the cream coloured Labrador is almost 2 years old. She is a large sized dog, weighing approximately 30 odd kilograms, and standing to a height of 60 cm.

Her thick cream, shiny coat is usually surprisingly clean and smooth. Soft fur can be found behind her floppy ears, which she enjoys being stroked.
She has large sharp teeth, which you don't normally see and a deep growl, which she uses when she is scared of something. On the rare occasion that she barks, you know about it, as her bark is loud and fierce. Lucy loves lazing around in the company of family. She also likes going for a walk, although this wasn't always the case. As a puppy she would run the other way when her lead was shown.
She also loves food. Lucy would eat anything given the chance and she easily puts on weight, so the vet has recommended a strict diet. Daily exercise is important for keeping her healthy.
